

Timber Harvest Report
(CFWC-FM-07)

Pre-Harvest Conference Checklist

Check (✓) if present or discussed

Group Member Name _____ Number _____ Date _____

Buyer _____ CoC Number _____

Logging Supervisor _____

How was the timber marked (100% marked, leave trees marked, take trees marked, or specific silvicultural prescription discussed with sophisticated logging crew)?

The following list of items was discussed during the pre-harvest conference with logging supervisor:

- Provide all names and contact information
- Adjoining landowners notified by Cooperating Forester
- Review the terms of the contract including any special logging areas and conditions
- Discuss management plan objectives, how harvest helps achieve objectives, consequences
- Discuss RTE species, communities of concern, high conservation value forests
- Discuss ecologically sensitive features: riparian areas, steep slopes, wet areas, your groups of trees, and other areas to avoid
- Discuss cultural features: archaeological sites, hiking trails, other areas to avoid
- Discuss the need to use safety equipment and PPEs
- Discuss ways to prevent unnecessary injury to the residual stand
- Discuss sale boundaries, skid trails, and landing areas
- Discuss separation of certified/non-certified material if sale combines both
- Explain restrictions about working during wet weather and soil conditions. Discuss excessive rutting and give acceptable guidelines
- Discuss closing procedures for skid trails, landings, and roads. Provide copy of BMP guidelines if needed.
- Discuss trash and lubricant disposal
- Other items discussed: _____
